

## The Exporters Almanac

### United Nations Code for Trade and Transport Locations (UN/LOCODE) for Nauru

**N.B.** To check the official, current database of UN/LOCODEs see: <https://www.unece.org/cefact/locode/service/location.html>

| UN/LOCODE | Location Name | State | Functionality                          | Status                        | Coordinates <sup>i</sup> |
|-----------|---------------|-------|--|-------------------------------|--------------------------|
| NR INU    | Nauru Island  |       | Port; Airport; Postal exchange office; | Code adopted by IATA or ECLAC | 0033S 16655E             |
| NR YRN    | Yaren         | 14    | Road terminal;                         | Recognised location           | 0032S 16655E             |

---

<sup>i</sup>This column contains the geographical coordinates (latitude/longitude) of the location, if there is any. In order to avoid unnecessary use of non-standard characters and space, the following standard presentation is used:

**0000***lat* **00000***long* (*lat* - Latitude: N or S ; *long* – Longitude: W or E, only one digit, capital letter)

Where the last two rightmost digits refer to minutes and the first two or three digits refer to the degrees for latitude and longitude respectively. In addition, you must specify N or S for latitude and W or E for longitude, as appropriate.
